# Health & Safety

## Our Commitment

### Health & Safety

The well-being and health of our guests and team members is at the heart of everything we do here at Semiahmoo. In light of COVID-19, we've dedicated our focus on health and safety even further. And we've never been more thankful for our remote location and vast 80-acre seaside grounds with plenty of wide-open spaces, so you can breathe in some fresh PNW air while safely social distancing.

Through our management company, Columbia Hospitality, we've partnered with Ecolab, a global leader in infection prevention, to take our already stringent safety and sanitation protocols to the next level through the Columbia Clean program. Columbia Clean is an elevated set of health, hygiene, safety and sanitation standards developed in response to the COVID-19 pandemic to create a cleaner, safer environment for our guests.

### Columbia Clean Protocols

- Utilizing highly effective and sustainable Ecolab cleaning products to clean and disinfect throughout the properties.
- Utilizing training and procedures as recommended by Ecolab and the CDC.
- Increasing the frequency and intensity of cleaning and disinfecting high-touch, high-traffic areas, such as light switches, door handles, remotes, elevator buttons, thermostats, and more.
- Enhancing cleaning and sanitation standards throughout guestrooms, event spaces, common areas, heart-of-house spaces and more.
- Implementing physical distancing layouts, markers, and signage in common areas, meeting and event spaces, and amenities.
- De-cluttering paper and other amenities, such as pen, paper, directories, magazines, etc. and supplementing with digital options or providing amenities upon request.
- Increasing the number of customer-accessible sanitizing stations at primary entrances and high-traffic locations like elevators and lobbies.
- Implementing innovative clean technologies, such as modern electrostatic sprayers to sanitize surfaces and objects.
- Implementing low and no-touch golf experiences, including the elimination of shared water stations, ball washers, bunker rakes, and more.
- Launching Columbia Clean Teams; team members thoroughly trained on health, hygiene, safety and sanitization standards and responsible for upholding these standards.

If you have any questions or concerns, please don't hesitate to visit the Front Desk and ask for the Manager on Duty.

## History

This beautiful area was originally inhabited by a band of Native Americans known as the Semiahmoo. There are different interpretations as to what the word "Semiahmoo" means. According to Chief James "Jimmy" Charles, chief of the Semiahmoo, the word means "half-moon," and describes the shape of Semiahmoo Bay. But White Rock, B.C. historian Lorraine Ellenwood writes that "it translates, in one sense, as 'water all around' or 'hole in the sky'". Either way, we think Semiahmoo is spectacular. Learn more about the rich history of the area in our full compendium.
